Contents

International Contact Addresses	1-ii
Chapter 1 The Changing Environment	1-2
Section 1 - The Way We Were	1-3
Section 2 - Brave New World	1-4
Section 3 - Back To The Future	1-5
Chapter 2 Properties of Transmission Lines	2-2
Section 1 - Line Equivalent Circuit	2-3
Section 2 - Characteristic Impedance	2-5
Section 3 - Impedance Matching	2-7
Section 4 - Return Loss.....	2-11
Section 5 - Insertion Loss	2-12
Section 6 - Longitudinal Balance.....	2-13
Section 7 - Crosstalk	2-15
Chapter 3 Environmental Influences	3-2
Section 1 - Noise	3-3
White Noise.....	3-7
Noise Density.....	3-8
Real Noise.....	3-9
Impulse Noise	3-11
Section 2 - Interruptions	3-13
Chapter 4 Line Impairments	4-2
Section 1 - Impairment Types	4-3
Section 2 - Cabling Faults.....	4-5
Split Pairs.....	4-5
Gauge Changes.....	4-6
Bridged Taps	4-7

Load Coils	4-8
Bad Twisting	4-8
Section 3 - Fault Location	4-9
Time Domain Reflectometers	4-10
Other methods of fault location.	4-12
Chapter 5 Analogue Measurements	5-2
Section 1 - Single-ended tests	5-3
Return Loss	5-3
Noise	5-3
Near End Crosstalk.....	5-4
Longitudinal Balance	5-4
TDR Test	5-5
Multimeter Tests.....	5-5
Section 2 - Double-ended Tests	5-6
Insertion Loss.....	5-6
Far End Crosstalk	5-7
Bit Rate Evaluation.....	5-7
Interruptions.....	5-7
Section 3 - Bridge-connected tests.....	5-8
Noise Immunity	5-8
Power Spectral Density.....	5-8
Chapter 6 Alternative Approaches	6-2
Section 1 - Digital Service Testing	6-3
Section 2 - Plant Records	6-4
Section 3 - Parametric Testing	6-5
Chapter 7 Qualification Logistics	7-2
Section 1 - Factors for consideration	7-3
Section 2 - Tester Deployment	7-4
Chapter 8 Qualification Strategies	8-2

Section 1 - Pre-Qualification	8-3
Section 2 - Grey areas	8-4
Section 3 - Bulk Pre-Qualification	8-8
Section 4 - Selective Pre-Qualification	8-11
Section 5 - Commissioning Qualification	8-13
Section 6 - Maintenance-only testing	8-14
Chapter 9 Practical Qualification	9-2
Section 1 - Two-Wire Tests	9-3
Section 2 - Four-Wire Tests	9-8
Chapter 10 Practical Troubleshooting	10-2
Section 1 - Troubleshooting Methodology	10-3
Isolation Testing	10-4
Noise Testing	10-5
Return Loss Testing	10-6
Longitudinal Balance Testing	10-7
Line Length Testing	10-8
Section 2 - Fault Location	10-13
Chapter 11 Maintenance Strategies	11-2
Section 1 - Pro-active Maintenance	11-3
Section 2 - Re-active Maintenance	11-4
Appendix 1 Decibels	A1-2
Section 1 - Decibels	A1-2
Section 2 - dBm	A1-5
Section 3 - Why Use Decibels?	A1-6
