Contents

Chapter 1 IP Multimedia Services.....	1
1.1 IP Telephony.....	1
1.1.1 Coding of Voice Signals	3
1.1.2 Network Performance Parameters	8
1.1.3 Opinion Quality Rating	13
1.1.4 Objective Quality Assessment	14
1.1.5 Market Segments	18
Chapter 2 Signaling.....	23
2.1 The Real-Time Transport Protocol.....	23
2.1.1 Synchronization Sources and Contributing Sources	25
2.1.2 Translators and Mixers	26
2.1.3 The RTP Packet	27
2.1.4 Stream Multiplexing	29
2.1.5 Security	30
2.2 The Real-Time Control Protocol.....	31
2.2.1 RTCP Packet Types and Formats	31
2.2.2 Quality of Service Monitoring	32
2.2.3 Source Description	36
2.2.4 Session Management: The BYE Packet	38
2.3 The Session Initiation Protocol	39
2.3.1 Standardization	40
2.3.2 Architectural Entities	41
2.3.3 SIP Basic Signalling Mechanisms	42
2.3.4 The Session Description Protocol	45
2.3.5 Security Issues	48
2.3.6 Service Architecture and Protocol Extensions	51
2.3.7 Firewall Traversal	54
2.3.8 Internetworking with the PSTN	60
Chapter 3 QoS in Packet Networks	67
3.1 QoS Basics.....	67
3.1.1 Traffic Differentiation	69
3.1.2 Congestion Management	69

- 3.2 End-to-End Performance Parameters 70
 - 3.2.1 One-way Delay 71
 - 3.2.2 One-way Delay Variation 74
 - 3.2.3 Packet Loss 75
 - 3.2.4 Bandwidth 77
- 3.3 Marking 78
 - 3.3.1 Traffic Flows 79
 - 3.3.2 Traffic Classes 80
- 3.4 Scheduling 80
 - 3.4.1 First In, First Out Scheduler 81
 - 3.4.2 Round Robin Scheduler 81
 - 3.4.3 Weighted Fair Queuing 82
 - 3.4.4 Priority Scheduler 83
- 3.5 Congestion Avoidance 83
 - 3.5.1 Admission Control 85
 - 3.5.2 Resource Management 88
- 3.6 Congestion Control and Recovery 90
 - 3.6.1 Drop Tail 92
 - 3.6.2 Partial Packet Discard 92
 - 3.6.3 Early Packet Discard 92
 - 3.6.4 Random Early Detection 93
- Chapter 4 QoS Architectures 97**
 - 4.1 QoS in ATM Networks 97
 - 4.1.1 Bandwidth Profile Characterization 98
 - 4.1.2 Negotiated QoS Parameters 98
 - 4.1.3 ATM Service Categories 99
 - 4.1.4 SLA in ATM Networks 101
 - 4.1.5 Resource Management 102
 - 4.1.6 The Failure of ATM 102
 - 4.2 QoS In IP Networks 103
 - 4.2.1 The Integrated Services Architecture 104
 - 4.2.2 The Reservation Protocol 107
 - 4.2.3 The Differentiated Services Architecture 118
